

## FUJITSU 8KW CEILING CASSETTE HEAT PUMP/AIR CONDITIONER

These powerful heaters are also very discreet, with just the grill showing in the ceiling. The compact models can fit into a standard ceiling panel, and they all incorporate the latest in fan technology to distribute the heat quickly and evenly throughout the room.

### System Details:

- Heating capacity: 8.0kW
- Heating efficiency: COP 3.61
- Cooling capacity: 7.1kW
- Cooling efficiency: EER 3.29
